New Zealand Fruit Growers, Australian Wine Growers, Fiji Island Spring Water Producers, Healing & Aromatic Essential Oil Producers are all discovering the powerful value of Measuring & Optimizing LIFE FORCE Scientifically.

The Principle: Life Force / Vital Energy is the ability to radiate life giving Electrical Charge. This is measured capacitively. Formerly it had been successfully measured with charge radiance (Korotkov GDV or Emoto - water crystals etc). Never before has this radiance been measured and quantified directly. The shape of the electrical charge field (imprecisely labeled ORGONE, CHI, SPIRIT etc) - is precisely what steers the liquid into the sensitive crystallization called BIOLOGY! This becomes evident as for example when compression of that charge PREDICTS SEED GERMINATION SUCCESS.

Recursive or Nested Cascade - Harmonics of Charge-Signature of LIFE:
INITIATE COMPRESSION - Self Organize / MAKE HEART! - Create LIFE!

Could Golden Mean Embedding - measureable in the heart - be the key to keep us in touch with life's energy - life's PASSION - so that even when we die, we can still see where we are going, navigating the bardo?
