DAN WINTER

Regarded as one of the most dynamic thinkers of our time, American-born Dan Winter is an internationally respected academic, physicist, author, accomplished keyboard artist, master animator, inventor and one of the foremost authorities on Sacred Geometry and the Scientific Nature of Consciousness. Dan places himself on the cutting edge of science and uses his teachings to inspire others to take a fresh look at their belief systems, environment, health and the development of their consciousness. By drawing on science, mythology and popular culture, Dan is constantly formulating breakthrough ideas about the deep connectedness of all things and how the profound nature of our "Oneness" can be approached via Sacred Geometry, architecture, art, maths, biology, computers, electronics and myth. His theories have formed the basis of notable research in the US, Europe and

Australia

The hi-resolution projection and sheer scale of Dan's visual presentations, combined with his lively lectures, extraordinary knowledge and sonic music samples taken from biological events, make for an unforgettable and unique experience. Plan your year NOW! Spend 4 Intensive Days with Dan Winter: Multimedia, Visuals, Experientials, Bliss Process and VERY Stimulating Discussion. Dan

Winter is widely acknowledged as the most original and penetrating wholistic science teacher on the planet today. Read about the radical incrimination of the current scientific views and the REAL NEW SCIENCE on gravity, DNA and the wave musical recipes of self-awareness and self-organization / how Science can measure LIFE FORCE / BLISS making gravity in DNA at: soulinvitation.com/phiricais

Note: While Dan Winter's body of thinking is very inclusive and in-depth (5 books / animations / more than 2000 pages - see main index) - this 4 day curriculum is particularly designed to be introductory and accessible to the layperson, providing substance and rich stimulation for the scientific or technically oriented, and requires NO previous knowledge of science / physics etc. Of course a healthy curiosity about the connection between wave science / musical harmonics VERSUS the nature of consciousness and spiritual experience is a great reason to come. Indeed the course IS intended for those who themselves intend to APPLY this knowledge practically and/ or professionally - clinically, in healing, sacred architecture / feng shui, and teaching.

Also: the course includes a 200 page manual for correlated take home study - soulinvitation.com/newbook - and hands-on HeartTuner/Coherent Emotion training with Dan Winter, who inspired new HeartTuner invention (www.heartcoherence.com) currently sweeping Australia and Europe. "Tune your heart and get on the same wavelength as the one you love - Learn, that when your heart synchronizes with your environment - embedding (nesting musically the waves in your heart / ECG) allows you to send CHARGE = Magnetism, which IS the WIND on which LOVE TRAVELS!".

A GUIDE TO SACRED GEOMETRY

Sacred Geometry is a PATHWAY TO UNDERSTANDING who you are, where you are from and where you are going. It is a blueprint of creation; an interface between the seen and unseen, the manifest and unmanifest, the finite and infinite.

From the mosaics of the Middle East and pyramids of Ancient Egypt to the calendars of the Aztecs and the Taoist philosophies and medicines of India, Tibet and China – Sacred Geometry has long bridged the world of spirit and matter, Heaven and Earth. It continues to play an integral role in the traditions of art, architecture, science and cutting-edge physics, alchemy, Feng Shui and geomancy, music and mathematics.

Sacred Geometry shows how each time two lines cross, they have to either figure out how to distribute and share their pressures or self-destruct. The result of this test for “shareability” is called symmetry. All waves and eggs and people and stars survive in their world by learning how to embed themselves. We now know the exact geometry of perfect embedding – it is teachable and is a real key to Feng Shui, architecture and sacred design. When waves can agree to meet sustainably, this is called “sacred”.

To truly understand Sacred Geometry we have to understand that everything in the universe is made up of energy and this energy is in a continual state of transformation. All actions obey distinct patterns, and Sacred Geometry describes these laws through shapes, forms and ratios.

Sacred Geometry gives you the opportunity to take a BIG PICTURE look at yourself and your place in the world. Once mastered, it can be applied to healing, counselling, biofeedback, researching, teaching, design and the creation of PEACE, BLISS and ONENESS.

- Anyone wishing to teach, practice and facilitate better bliss, movement, ritual, euphoric states based positive immune-system effects, magnetic and feng shui symmetry practices (“grid engineering”).
- Anyone wanting to address questions about diet, lifestyle and consciousness.
- Those wanting to prepare for Shamanic magnetic tornado steering and successful dieing.
- Those who appreciate the term NON CREDO (“I do not believe”), and are willing to define their lives and processes by “pure principles”.
- Free thinkers and dogma-free lovers.

These seminars will open the doors to wisdom, healing and universal spirit. They will show you the various influences on our individual and collective lives and how to perceive the mechanisms to make positive change. This is the Theatre of Life...a dynamic harmonic applied to every aspect of your life and understanding...

THE PROGRAM

Certificate course participants will be trained in the major theories of SACRED GEOMETRY, DESIGN, HEALING and EMOTIONAL COHERENCE.

The course comprises two parts, both held over four days in various locations around the world. A comprehensive home-study program using DVDs and CD Roms forms a compulsory part of the course, and extensive home-study tapes and DVDs are available to further facilitate your learning. You also have the option of training in HeartTuner biofeedback applications.

For the first time, students can move deeply into the experience of Sacred Geometry via Dan Winter’s cutting-edge curriculum. Dan imbues each subject with an inspiring, dynamic and creative rhythm – his teachings will equip you with knowledge and wisdom that can be applied directly to design principles, healing, biofeedback, ecologically sustainable environments, music, addiction-free lifestyles and the hygiene of BLISS MAKING and PEACE MAKING.

The program may vary slightly between locations. Dan Winter is the principle teacher, with Michael Rice set to teach Part One in the US and guest lecturers also sharing their knowledge. Part Two will be held in a retreat-style setting, with an abundance of nature, fresh air, earth energy and great food.

WHO IS THE COURSE FOR?

The course will have particular relevance for:

- Anyone wanting to initiate change in their private and professional lives.
- Architects, designers, healers, dowsers and feng shui practitioners, who will all receive further validation of their skills.
- Those who feel the need to give meaningful and measureable SCIENTIFIC language to profound spiritual experiences.

PART ONE (4 days)

The first part of the Certificate Course offers participants a step-by-step curriculum that serves as an initiation into understanding:

- The Universe is made of one substance and has one shape – the Sine Wave.
- The world is made up of waves and sacred proportions.
- Geometry produces symmetry. Waves get permission to arrange themselves and to store memory from 'ONENESS', through the Golden Mean 'Phi' ratio – the secret of the universe and the most accurate scientific pure principle to describe how things relate and function, evolve, change and manifest.
- Waves are drawn to FOCUS and automatically sort themselves and agree to sustain via Sacred Geometry. They align to still points, creating 'CHARGE', 'ecstasy' and LIFEFORCE.
- When the harmonics of the brain-body-heart-planet enter into NESTING, they do so by the principal of FRACTITALLY. The small is within the large; the pattern of your fingertip is the same as the galaxy.
- The doorway of perception is to holographically connect all of life processes – past, present and future.
- The Fusion of Geomancy, Science, and Feng Shui.

- How to make friends with MAGNETISM and how to make your own Sacred Space.
- Who you are...

LEARNING STRATEGIES

As well as group discussion and interaction, 3-D computer animations will be used to demonstrate how DNA braids and responds to hearts in a state of BLISS. This embedding idea will then be applied to STAR MAPS, Map Dowsing and understanding Earth Grids.

Students will receive the 'Alchemical Workbook' as part of the course fee and can purchase home-study DVDs and CD Roms to help consolidate this material.

On a practical level, students will develop an understanding of the quality of numbers, ratios and proportions, which can be applied to art, design, healing and music.

On a philosophical level, you will learn the importance of creating BLISS in your life and gain greater understanding of the influences of Universal Cosmology and the cycles of change.

On an emotional level, you will get to grips with 'Lo-Phi' (LOVE) and how integral LOVE is to Sacred Geometry.

From the baseline of pure principle, your creative INTUITION will learn how to FLY...

PART TWO (4 days residential)

In Part Two of the Certificate Course, Dan Winter will delve into his incredible knowledge-base to reveal how the PASSION of the HUMAN HEART is the switch-point in interstellar DNA politics. He will also discuss the true power, physics and emotions of BLISS, and how the experience of BLISS can influence climate, the environment, gravity and human relations.

To support this process, Part Two will be held in a retreat-style environment over an intensive four-day period. During this time Dan will literally change your physical wellbeing by introducing you to several types of SACRED MOVEMENT including sacred circle dance, sufi dance, Gurdjieff Sacred Gymnastics and posture-induced ecstasy. Experience an intense ritual CHOREOGRAPHED IN TIME TO FRACTAL SPACE, TIME, STARS AND MAGNETISM

Some of the numerous subjects to be covered include:

- The PRACTICAL POLITICS of BLISS, the power of MAGNETISM and VIBRATION in music, the ECSTATIC PROCESS and EMOTIONAL COHERENCE
- An introduction to heart harmonic biofeedback.
- The ET origins of human DNA, Gene splicing, UFO abductions and the attempt to get soul tornadoes braided into DNA.

- The role of biology and human BLISS in fabricating the coherent centering gravity force behind the evolution of planet atmospheres and stars. Learn why compression without heat is not only the key to surviving death – it is the electrical recipe for perfect space.
- The Sacred Geometry of Planetary Grids.

• **FEELING MAGNETISM – the PURE PRINCIPLE BEHIND PRACTICAL DOWSING**
THE THEMES FOR THE ADVANCED WEEK ARE INTERWOVEN DELICATELY WITH THE ABILITY OF THE GROUP TO SUSTAIN

INTENSITY AND BLISS. Real practice in diet and lifestyle in a pristine environment are critical and implicate in the process of the initiatory week.

The sequence of these delicate spiritual topics will depend on the evolution of the group's ability to integrate technical understanding with the emotional maturity to USE and not just discuss the SCIENCE of the spiritual destiny of souls.

Each student will be asked to ASK enough questions to prove to THEMSELVES that they could begin to TEACH what they have LEARNED... The experience of Part Two will change your life.
