

The Lifeforce Principle of all Energy Bodies- from Dan Winter danwinter@fractalfield.com FRACTAL FIELD TECHNOLOGIES		The Pure Symetry Principle of Self Organization	(Fusion Principle/ Alchemic Principle/ Implosive Principle/ Phase Conjugate/ Fractal	
<b>Core Concept</b>	<b>The discipline or field</b>	<b>The Body of Evidence Existing vs Current Research</b>	<b>Timeline/ Current Test Strategies January</b>	<b>February</b>
The 7/5 Spin Principle ANU Hex vs Pent in Power Spectra	Water/ Hydrodynamics/ Vortex symmetries	Fractality - lifeforce - coherence in water measures: + GDV + Microcapacitance (Dan) + CAMP (Alex K) + Light scattering (Patterson)	Magnet PC Linear Test --- Magnet Jitterbug (Dodeca) Test---- Fermentation Pent - Blossom/germinate vs Hex - Storage fixation prevent decay Also "flavour frequencies"	(Feb results on "flavour frequencies"
Revealed by harmonic analysis/ Octave vs Fire Harmonics	Electromagnetic Field Theory (for self organisation): + PC Dielectrics + PC Optics + PC Magnetics	Dielectrics: + Orgone (growth enhancement) + Ceramics and cements (growth enhancement and electro smog shielding) Magnetics (for water purification/sedimentation )	PCC crystal fermentation effect measured, conductivity effect measured: Next step is independent lab review (CPI) and commercialisation analysis.	Analyse PC ceramic composites for electro smog shielding - and growth rate accelerator containers - and organic reaction acceleration effect.
Stages of growth/energy consciousness	Charge in air Charge in space Lifeforce in biologic architecture	Fractality in air measures/lifeforce measures/freshness measures: + Korotkov GDV + Rob/Dave freshness meter + Dan capacitance EGG	GDV Fifth Element Tests Lifeforce Space Meter Minaturisation Project (Dr Korotkov)	?

		+ Microwave scanner? (Bob D)		
Evolutionary steps of all plasma bodies	+ Phytobiology + Genetics	Fractality in plant morphologies measured by power spectre. - Fold algorithms in DNA evolution measured by spectral emissions. ("Boson 7" / "Microchloridians")	"Fields of Form" testing.  Allies doing DNA emissions harmonic analysis.	?
Evolution of Pure Intention	Stages of consciousness measured by EEG/brainwaves	Conscious leap correlated to jump from octave to golden ratio (Hex vs Pent) in brainwave harmonics.	The new form of the Bliss Tuner brainwave biofeedback.	?
Stages of successful death	+ DNA death (apoptosis) + Death in the human aura Successful death is implosive plasma migration	Examples: Measuring cellular metabolic acceleration converting from catabolic to anabolic (Wuttke) - measuring successful human death reveals the plasma symmetry of DNA (Kluver Form Constant)	Marty's measurements (on metabolism)  Dr Korotkov's measurements of death.	
Fractal Economic Theory -	Evolution of Money System Money is the symbol which mediates distributes HUMAN energy.	Fractality (in money system) perfects distribution by reduced storage- creating life and abundance.(in electric fields which create life)- Defining abundance for economics in new money system.
