

**The FRACTAL FIELD TECHNOLOGIES - Fractal Lifeforce Space Solutions      danwinter@fractalfield.com**

Defining, diagnosing and restoring lifeforce in contained biologic environments: the room, the house, the office and the theatre

Restoring the biophysics of growth by measurement and thereby redefining success in living architecture

Review of essential principle: as in the Heart (HRV) medical literature- where (fractal)harmonic inclusiveness defines the viability (survival) of all living systems. That fractality- predicts what cavity- will create life - by creating efficient (fractal) energy distribution. Where a container (architecture) creates a fractal center (like in an egg or pine cone) health results. Note how many bandwidths or spectra in which this could be commercialized:

<b>The category of measurement/bandwidth</b>	<b>Diagnostic Tools</b>	<b>Techniques for solutions</b>	<b>% improvement possible estimations</b>
Capacitive/ capacitively coupled (charge radiants)	<ul style="list-style-type: none"> <li>- GDV/air fractality</li> <li>- Callaghan probe capacitive antennae</li> <li>- PC gold egg cup (spectrum analysis)</li> </ul>	<ul style="list-style-type: none"> <li>- biologic resurfacing/bioactive coatings</li> <li>- charged calcite or quartz sands in minidolmen containers (the Gary Skillen technique)</li> <li>- Activated crystal sands applied agriculturally or in water (technique of <a href="http://www.polcher.de">www.polcher.de</a> )</li> <li>- Pyramid cement/PCC resins</li> <li>- Bioactive polymers/bioactive field effect ceramics</li> </ul>
